{
    "status": "success",
    "body": [
        {
            "_id": "5f2d643c2004be5f80ec1bd2",
            "following": {},
            "followers": {
                "5f2d64442004be5f80ec1bd3": "volunteer"
            },
            "name": "New org",
            "description": "description",
            "phone": "123456789",
            "siteLink": "www.org.pt",
            "facebookLink": "www.facebook.com",
            "linkedinLink": "www.linkedin.com",
            "nrFollowing": 0,
            "nrFollowers": 1
        },
        {
            "_id": "5f2d64382004be5f80ec1bd0",
            "following": {
                "5f2d893272d0185bf0b94b7a": "volunteer",
                "5f2d64442004be5f80ec1bd3": "volunteer"
            },
            "followers": {},
            "name": "New org",
```

```
            "description": null,
            "phone": null,
            "siteLink": null,
            "facebookLink": null,
            "linkedinLink": "www.linkedin.com",
            "mail": null,
            "nrFollowing": 0,
            "nrFollowers": 0
        }
    ]
}
```

Get org by id

Retrieves a specific org

```
GET /orgs/:org_id
```

- Request:
  - Path parameters:
    - org_id: id of org
  - Body: none
- Response:
  - Success:
    - Status code: 200
  - Content-Type: application/json
  - Body example:

```
{
    "status": "success",
    "body": {
        "_id": "5f2d64382004be5f80ec1bd0",
        "following": {
            "5f2d893272d0185bf0b94b7a": "volunteer",
            "5f2d64442004be5f80ec1bd3": "volunteer"
        },
        "followers": {},
        "name": "New org",
        "description": "description",
        "phone": "918312733",
        "siteLink": "www.pt.org",
        "facebookLink": "www.facebook.org",
        "linkedinLink": "www.linkedin.com",
        "mail": "mail@mail.org",
        "nrFollowing": 0,
        "nrFollowers": 0
    }
}
```

Update org

Updates the org's fields. Requires authentication by the org.

```
PUT /auth/orgs/:org_id
```

- Request:
    - Path parameters:
        - Org_id: id of org
    - Body example:

```json
{
    "description": "new description",
    "linkedinLink": "www.linkedin.com/abc"
}
```

- Response:
    - Success:
        - Status code: 201
    - Content-Type: application/json
    - Body example:

```json
{
    "status": "success",
    "body": {
        "message": "Profile updated",
        "success": true
    }
}
```

Follow org

Follows/unfollows an org. Requires authentication.

```
PUT /auth/orgs/:org_id/follow
```

- Request:
    - Path parameters:
        - org_id: id of org
    - Body: none
- Response:
    - Success:
        - Status code: 201
    - Content-Type: application/json
    - Body example:

```json
{
    "status": "success",
    "body": {
        "message": "Follow was changed.",
        "success": true
    }
}
```

```json
{
    "status": "success",
    "body": {
        "message": "Follow was changed.",
        "success": true
    }
}
```
